## FROM ROSIE TO ROOSEVELT

### The American People in World War II: A Film & Discussion Series

Within weeks of the attack on Pearl Harbor, the men and women of America, responding to the national emergency and to the President's exhortation, began to mobilize for war. Men would take the battle overseas. Many women would also serve in the armed forces, while others would throng to factories and shipyards to build the equipment necessary for victory.

The American World War II experience involved the very substance of history . . . politics on the grandest scale and military activity of a global dimension. The result was an extraordinary transformation for this country and its people.

You are invited to explore the American wartime experience through *From Rosie To Roosevelt: The American People in World War II: A Film and Discussion Series*. This six-part series will be moderated by Michael D'Innocenzo. Mr. D'Innocenzo is Professor of History at Hofstra University and The Harry H.

Wachtel Distinguished Teaching Professor for the Study of Nonviolent Social Change. During each program an award-winning documentary film will be shown. Mr. D'Innocenzo will set the scene for each film and provide background information to enhance the viewing experience. Participants will have the opportunity to discuss the films and share their own experiences.

World War II veterans, their spouses and families, and students of all ages are invited to participate in the discussions. All programs will take place at the Northport Library. Refreshments will be served.

The Library is proud to present this film viewing and discussion series which was planned many months ago. The very personal experiences of the American people during World War II may offer profound insights into the events our country is experiencing today.

So that we can prepare materials for these programs, we ask that you register in advance by calling the Northport Library at 261-6930.
