Carnegie Library, 1914-1915

With Carnegie and community support in place and library assets transferred from the Literary Union, the Northport Public Library received its charter from the state in June 1914. Construction started on the new library building on the corner of Main Street and Woodside Avenue the following October. Harry E. Donnell, a well-known New York City architect, designed the tapestry brick building. Mr. Donnell was related to the Delamater family, whose estate covered most of Eaton's Neck at the time. Vail and Call, a local firm, was the builder.

On December 13, 1915, the library celebrated its formal opening with an evening of music and speeches. A *Brooklyn Eagle* article described the building's interior: "The north end is arranged for a children's room while the other end is for adults. At each end tables of proper size to meet the requirements have been placed, and an electric light plug has been so arranged in each that reading lamps can be utilized. Passing down the stairway, the visitor enters a spacious lecture hall in the basement, with a raised platform at the north end."

### Theodor (Dr. Seuss) Geisel, 1904-1991

"Think left and think right and think  
low and think high. Oh, the thinks you  
can think up if only you try."

from *Oh The Thinks You Can Think!*

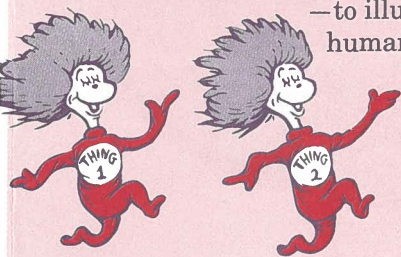

On March 2, 2004, the man we know as Dr. Seuss — Theodor Geisel — would have been 100 years old. Dr. Seuss educated and entertained both children and parents for more than 50 years. He inspired children not only to think but to "move mountains." He started as a writer, illustrator, cartoonist, and advertising artist in the 1920s and 1930s. His work appeared in a number of popular magazines including *Judge*, *College Humor*, *Life*, *Liberty*, and *Vanity Fair*. His career as a children's author began with the book *And to Think That I Saw It on Mulberry Street* in 1937.

In 1940, to protest isolationism in the U.S., Dr. Seuss turned to political cartoons. He also did drawings for the U.S government and in 1942 he joined the armed forces and was assigned to a documentary film-making unit. Once the war was over he returned to writing children's books and making films, winning three Academy Awards. In 1954 he founded Beginner Books which was acquired by Random House in 1960.

In his Beginner Book series, Dr. Seuss wrote many modern classics for children including *Green Eggs and Ham*, *Fox in Socks*, and *The Lorax*. At the age of 82 he wrote *You're Only Old Once*, the most autobiographical of his books. The last book published before he died in 1991 was *Oh, the Places You'll Go!*

Dr. Seuss's legacy will live on—more than 200 million copies of his books have been translated into 15 different languages. Nearly 30 of his books have been adapted for television or video. Dr. Seuss was a poet, a master of word and rhyme. In his stories he used wit, rhythm, whimsy, oddball characters, and significant themes—greed, prejudice, environmental irresponsibility and intolerance

—to illustrate the quirkiness of human nature. His respect for children can be summed up in a quote from *Horton Hears a Who*, "Don't give up. I believe in you all. A person's a person no matter how small."
