Libraries Hold Communities Together

Libraries are publicly supported spaces that help hold communities together. They do far more than provide access to books and information. Libraries offer companionship and routine for older adults at risk of isolation, safe and enriching environments for children and teens, and language learning and settlement support for newcomers. They are also among the last truly open public places—welcoming people regardless of income, housing status, or background. A public library is not a luxury; it is a lifeline. Protecting and expanding library services ensures that everyone has access to knowledge, connection, and a shared public life.
