From the Board of Trustees
Dear Friends of the Library:

As April approaches, the Library Board of Trustees would like to extend our sincere gratitude for the support you have shown these last few months. A special thank you to the Friends of the Library for the generous support and for their belief in the importance of a vision for the future. The Friends of the Library have been instrumental in helping to raise funds for our capital campaign. This is a time of great possibilities, and we are excited about what we can accomplish together.

Our first goal is to build a new high school library. The library will be a hub of activity for students, providing a space for study, research, and collaboration. The library will be equipped with the latest technology and will be a resource for the entire school community. The library will be a place where students can come to learn, grow, and explore.

The second goal is to build a new East Northport Library. This library will be a vibrant community center, providing a space for residents of all ages to come together and engage in reading, learning, and cultural activities. The library will be designed with the community in mind, offering a variety of spaces for different needs and interests.

We believe that these new libraries will provide a strong foundation for the future of our community. We are excited about the possibilities and are committed to working together to make these goals a reality. Thank you for your support and for being such an integral part of the East Northport Library community.

Sincerely,

George E. Beatty, Jr.
