Connecting People and Ideas

Most Americans view public libraries as an important part of their community. The library is where people of all ages and interests explore the skills and knowledge needed to flourish in a rapidly changing world. The majority of those surveyed by the Pew Research Center’s September 9, 2016 Report stated that libraries have the resources they need and the guidance to help them decide what information is trustworthy. Eighty percent of those surveyed reported that public libraries should offer programs to teach people digital skills and help patrons learn how to use new creative technologies.

In 2015-16, the Northport-East Northport Public Library answered 199,468 reference questions and 24,285 patrons attended library-sponsored programs. The Northport-East Northport Public Library is clearly the place to be whether you are learning about local matters, social issues, cultural affairs or leisure activities, working with friends or colleagues, or developing and expanding your education. The Northport-East Northport Public Library remains true to its core mission to inform, educate and culturally enrich residents of all ages.

This budget proposal reflects the Library Board’s long-standing commitment to provide exceptional Library service to the community. Administration has carefully and thoroughly evaluated each component of the operating budget to effectively allocate resources in support of the Library’s mission. This budget proposal ensures the continuation of our standard of excellence while complying with the property tax levy limit set by New York State.
