# In the Museum Cove

## Picturing America

The Northport-East Northport Public Library is the proud recipient of a **Picturing America** grant awarded by the National Endowment for the Humanities in cooperation with the American Library Association. The **Picturing America** initiative consists of 40 poster-sized reproductions of American masterpieces and has been awarded to public libraries and schools across the country.

The grant application was submitted by the Children's Department of the Library last year and award notification was received this spring. To celebrate, the Museum Cove is featuring a new **Picturing America** exhibit beginning this month. The high-quality reprints will be displayed on a rotating basis through December, providing an innovative way for patrons of all ages to explore the history and character of America through some of its greatest works of art. In addition, the Library is offering various programs for children and adults which celebrate the American artistic experience.

In the Museum Cove, the display case will feature arts and crafts made by staff members. The creative pieces of our own Library artisans serve as a lively complement to the images of famous paintings, photographs, sculpture, and architecture mounted on the walls of the room. We invite you to visit **Picturing America** and be inspired by the local and national handiwork that has influenced the way we see our community and our nation.
